FEATURES

- Program
- Course
- Chapters
- Topics
- Session Type
- Session
- Lesson Plan
- Classes
- Publish classes

CURRICULUM

Academics Curriculum is a platform where we can setup initial setup for the programs and its courses.

PROGRAMS

Program is defined as any combination of courses. Programs are created to deliver learning activities of various sources and types in a structured manner.

COURSE

Courses are defined as combination of chapters.

CHAPTER

Chapter is defined as a combination of topics and it is a main division.

TOPIC

Topics are created for the chapters. It is used as a particular subject that you discuss or write about.

SESSION TYPE

We will have different methods to reach the content to the users. We have session types like Document, Audio, and Video

SESSION

It details the subject matter that you'll teach, how long each section should take, the methods of instruction for each topic covered, and the measures you'll use to check that people have learned what you needed them to learn.

LESSON PLAN

Lesson plan is used as a step-by-step guide which provides a structure for an essential learning. In lesson plan, we will add the particular sessions to be included in the lesson plan

CLASS

Academics is a platform where we can create class for the students.

PUBLISH CLASSES

Class Publishing is a platform where we can publish the classes in live environment for students to learn the courses.

EXAM PUBLISHING

Exam Publishing is a platform where we can publish the Created Exams in live environment for students to write tests.

QUESTION BANK

A collection of questions prepared for a given subject which is useful for students and teachers. We will create Question Bank for the programs

E-LEARNING

ELearning is a Platform Where Students can login and write Exams and attend the Classes which are published to learn particular program or course. The published classes or exams can be added to my classes/Tests from Available classes/Tests to take class/Exam
