ORDER PROVISIONING AND DELIVERY PLANNING

FOR PRODUCTS

Overview

Setup Order for provisioning and setup delivery planning for Products.

EXTENSION FORM

Add categories and sub-categories to list similar type of items to them. While adding items we can add Extension Forms for the selected extension items such as dispatch plans, cost forms etc.

Example:

- Enter item extension name as a Dispatch plan.
- Extension form type as a Dispatch form.
- Select application Order flow.
- Select user forms Dispatch plan for service items.
