

MONETIZING STORIES

- Monetizing Stories is nothing but the story which tells you the solutions for your organization.
- Story **Pricing** is nothing but after finishing the entire story writing and adding packages and **Automating Packages** user can give a pricing for their stories.
- Therefore, if any other user has similar problem which matches to your problems, then they can purchase your stories with packages.
- Purchase amount will be added as Relgo credits in your account so that you can purchase any other products with those credits or else you can **encash** them into your bank accounts.
